

CEE

International Research Awards on Civil and Environmental Engineering

CALL FOR PROFILE – CEE Conference

About Awards: ScienceFather takes the privilege to awarding the Industries, Academicians, Researchers, Scientist, and Regulators from Science, Health and Medical fields across the globe to its International Events. The International Conference on Civil Engineering is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: The International Conference on Civil Engineering International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features and Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Civil Engineer Awards | Young Scientist Award | Best Researcher Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award. Institute/ Organization Awards: Excellence in Innovation | Excellence in Research | Civil Excellence Award (Any Scientific field) | Best Research /Innovation Extension activity

Topics of Awards Subjects include, but are not limited to: Structural Engineering | Geotechnical Engineering | Transportation Engineering | Water Resources Engineering | Environmental Engineering | Construction Management | Materials Science and Engineering | Urban Planning | Coastal Engineering | Structural Health Monitoring | Earthquake Engineering | Risk and Resilience Engineering | Water and Wastewater Treatment | Environmental Chemistry | Solid Waste Management | Environmental Microbiology | Environmental Hydrology | Sustainable Development | Environmental Risk Assessment | Air Pollution Control | Environmental Modeling | Environmental Policy and Management | Climate Change Mitigation and Adaptation | Green Infrastructure | Industrial Ecology | Environmental Ethics
